Black Bean Brownies

1 box double chocolate Giradeli brownie mix- (HELLO- no substitutions, cheaper brownie mixes do not contain the GOOD Chocolate!!)

1 can of black beans , you can puree the entire can without draining- or you can drain the can with the lid still partially attached and add back water- just enough to fill the can with the beans still in the can.- just replacing the same amount of liquid you drained. Puree, add to brownie mix and stir together-

Bake for 40-50 min- enough that the middle is not wet, and sides are not crunchy

Variations: I add 1 cup of walnuts to the batter- I like it crunchy.

If you just need a little oil in your diet- you can add in 2 Tablespoons of EVOO- it does make the brownies just a little richer tasting!!
